

■ UNIFIED COMPLIANCE MANAGEMENT

Compliance as a *competitive advantage*.

Cylerian now supports key global and regional cybersecurity frameworks, aligning your operational security data with regulatory requirements so you can meet audit and compliance demands with confidence, from one platform.

01 FRAMEWORKS NOW SUPPORTED

GLOBAL & INTERNATIONAL STANDARDS

ISO 27001	Information Security Management Systems · the international ISMS benchmark.
NIST CSF	NIST Cybersecurity Framework · risk-based US security backbone.
CIS	CIS Critical Security Controls · prioritized, prescriptive safeguards.
CMMC	Cybersecurity Maturity Model Certification · US defense supply chain.
PCI DSS	Payment Card Industry Data Security Standard · cardholder data protection.

REGIONAL & INDUSTRY-SPECIFIC MANDATES

ADHICS	Abu Dhabi Healthcare Information & Cyber Security · UAE · healthcare.
NESA	National Electronic Security Authority · UAE national information assurance.
DESC	Dubai Electronic Security Center · UAE · Dubai government & key entities.
NIS2	EU Network & Information Security Directive · European Union cyber resilience.
DORA	Digital Operational Resilience Act · EU financial services.

02 ONE PLATFORM, SIMPLIFIED

VISIBILITY

Centralized security visibility

Bring operational data from across your environment into one console.

MAPPING

Operational data, mapped to controls

Align live telemetry with regulatory requirements automatically.

READINESS

Real-time audit readiness

A default dashboard surfaces gaps and posture continuously.

SCALE

Stay ahead of change

Deploy security at scale to meet new and evolving mandates.

03 WHY IT MATTERS

- + **Reduce regulatory & financial risk** · avoid penalties & exposure.
- + **Improve internal security maturity** · operationalize real controls.
- + **Build customer & partner trust** · demonstrate diligence.
- + **Expand into regulated markets** · enter health, finance & public sectors.

See your compliance posture in real time.

Connect your environment and watch Cylerian map your operational data to ISO 27001, NIS2, DORA, ADHICS and more, in minutes.
