

■ FOR MANAGED SERVICE PROVIDERS

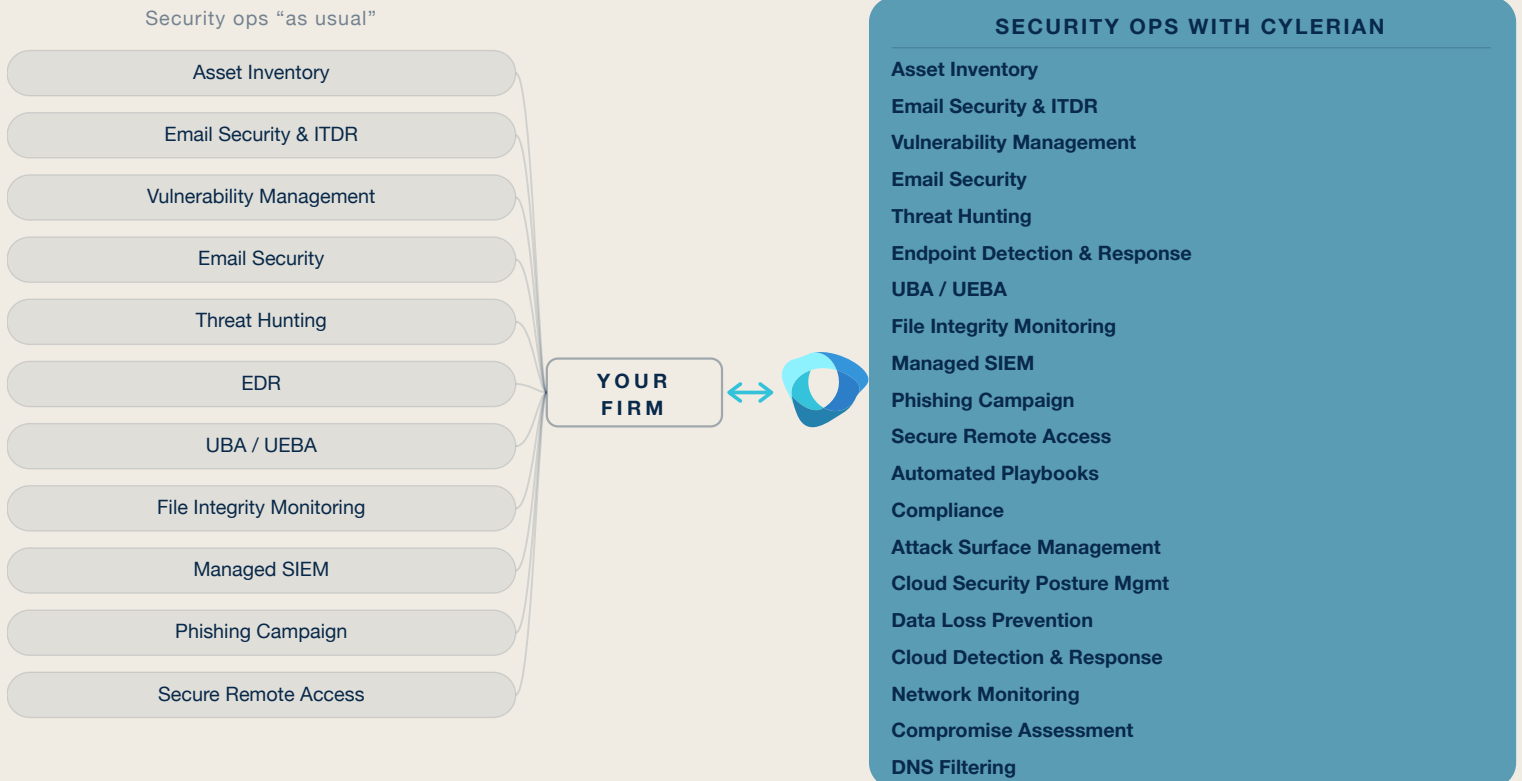

Enterprise-grade cybersecurity in a unified platform

Cylerian helps MSPs deliver comprehensive security to businesses of all sizes.

Simplify operations. Grow profitably.
Deliver daily peace-of-mind.

Cyber threats are evolving and growing in sophistication. Providing the end-to-end protection with multiple tools can be too costly to deliver and manage. Cylerian's unified platform, backed by a dedicated SOC team, provides total multi-tenant visibility into your clients' environment, enabling proactive threat detection and response while achieving your compliance goals.

■ PLATFORM SERVICES

How can Cylerian help you deliver daily peace-of-mind at scale?

Managed Detection and Response

Get cost-effective, threat monitoring for your client's entire environment, including email, endpoints, networks and cloud.

Managed SIEM

Gain complete visibility using the industry's most cost-effective, cloud-native, AI-driven, centralized log management and analytics platform.

Exposure Management

Assess your security posture across on-premise and cloud environments in real-time and reduce your attack surface.

Email Security & ITDR

Protect against phishing, BEC, and account takeover with AI-driven email security and identity threat detection and response across your clients' environments.

Remote Management & Monitoring

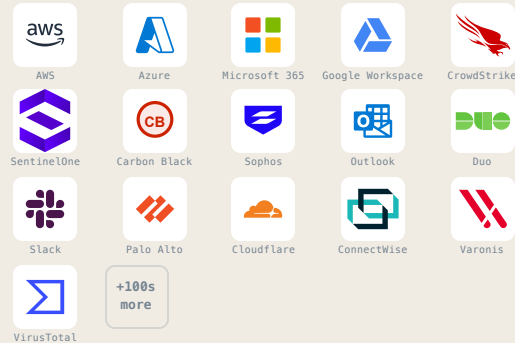

Remotely manage and monitor your infrastructure with shared terminals that improves team collaboration.

Automated Playbooks

Create and run complex operational workflows to ensure your team provides consistent responses to identified attacks.

Keep using your favorite tools with Cylerian's integrations

If you prefer existing software, Cylerian's integration Marketplace allows you to connect with hundreds of providers in just a few clicks.

■ PARTNER WITH CYLERIAN

A proven partner for MSPs at every scale.

With a proven track record across multiple industries, experts with over 30 years in cybersecurity experience, and a customer-centric approach, we help you grow profitably while delivering enterprise-grade security to your clients of all sizes.

"We recommend Cylerian to many of our clients that are early in the security maturity curve as well as to more established clients that are looking to improve their security posture with a more holistic solution."

DAVID ARMSTRONG
APHTHORIA

"Our clients have to adhere to strict compliance requirements for their industry. Cylerian's end-to-end solution allows us to deploy security at scale to meet these compliance needs."
